

Plastics Disposal Flowchart

You just finished your snack and now you're ready to throw out the plastic packaging it came in. **Where does it go?**

Follow the steps to find out which bin your plastics should go into.

Does it have a resin identification code or compostable/biodegradable label?

Put your plastics into the correct bin(s).

Put packaging in municipal compost bin.

Household Compost Bin

Discretion needed: large or thick items may not fully degrade or may take considerable time to degrade.

Put packaging in regular garbage bin.

Empty/clean recyclable packaging and put in the recycling bin.

Put packaging in regular garbage bin.

Put packaging in regular garbage bin.

Your municipality takes your plastics to different facilities.

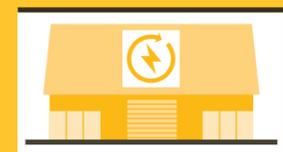

Municipal Composting Facility

Recycling Facility

Energy Recovery Facility

Landfill
